

## EXPLANATION OF FEES AND EXPENSES

Some insurance plans are accepted for therapy but most will only cover the cost of your sessions after you have met your deductible for the year and often not in full. We offer two options for payment, insurance and private pay.

### FILING WITH INSURANCE PROVIDERS

If you choose to use your insurance, you will be responsible for the entirety of the fee until your deductible is met and the co-payment thereafter. We are able to bill your insurance company at the rate below, and if your deductible has been met and the insurance company approves the payment, you will only be responsible for the co-payment. *Please visit our website for a list of questions you can ask your insurance provider or call us with any questions you may have.*

#### Rate for Insurance:

~ \$150.00 per 50 minute session

### PRIVATE PAY OPTIONS

If you choose to use the private pay option, we have provided a sliding scale below. Each salary rate is based on household income and NOT individual salary (exceptions can be made for dependents). Each session will be paid for at the time services are rendered and will be considered paid in full at that time.

Annual Income			50 minute session
< \$30,000.			\$80.00
\$31,000. - \$55,999.			\$105.00
